Sr FE Engineer & FE Manager - TN Marketing
Aug 2020 - May 2024

Spearheaded front end initiatives for a dynamic eCommerce platform catering to 14 distinct brands/sites. Orchestrated and contributed to the migration from a conventional PHP/JQuery-driven Wordpress architecture to an independent front end, built with Laravel, Blade templates, Livewire, and AlpineJS. Was a core contributor to the development of Cypress end-to-end tests that supported the migration. Managed a team of remote front end developers across multiple time zones, overseeing task allocation, scoping, and scheduling work. Collaborated closely with the UX team to ensure technical feasibility, and adherence to ADA compliance standards. Also built and supported multiple micro front ends built in React.

FE UI Engineer & Sr. UX Engineer - Bluprint/Craftsy
Jun 2013 - Aug 2020

Played integral roles in both UX and development aspects across various projects, transitioning from UX Engineer to Senior UX Engineer and eventually focusing on Front End UI Engineering. Contributed to diverse Front End stacks, encompassing an e-commerce platform in React, a React Native mobile app, a Video Player Library utilizing Preact/React/JS, and a CMS in Handlebars/JS. Actively participated in re-branding and rebuilding initiatives. Collaborated closely with Product teams, involving wire-framing, user testing, mockups creation, and HTML/CSS development for new features.

UI/UX Designer - Echostar
Jun 2011 - Jun 2013

Was the primary UI/UX Designer for dishanywhere.com. Also contributed to the Front End coding efforts needed to launch the site.

Web/UI Designer - On-Site.com
Sep 2008 - Jun 2011

Designed and coded a template system for the On-Site Marketing platform. As well as redesigned the UI/UX for said platform's administration interface.

Web/UI Designer - Resort Destination Marketing
Feb 2008 - Jun 2008

Designed and coded vacation rental websites for the ski industry.
