

nick malozzi

Front End Development & Design

<hello world/>

My name is Nick Malozzi, and I love building interfaces. As a Front End Developer with experience in Graphic, Web, & UX Design, I'm uniquely suited to work closely with Design and/or Product Teams.

<experience/>

Front End UI Engineer - Blueprint (formerly Craftsy) *July 2018 - Present*

Contributed to multiple Front End stacks. Including, but not limited to, an e-commerce platform built in React, an iPhone/Android app built in React Native, a Video Player Library built in Preact/React/JS, and a CMS built in Handlebars/JS. Participated in a number of re-branding and/or rebuilding efforts.

Sr UX Engineer & Front End UI Engineer - Craftsy *June 2013 - July 2018*

Came on board with Craftsy as a UX Engineer; was quickly promoted to Sr UX Engineer. UX Engineer responsibilities included working with the Product team to create wire frames, user tests, mock ups, conduct user tests, and write HTML/CSS for new features. Transitioned to a more Development focused role in January of 2017. Craftsy was acquired by NBCU and renamed Blueprint.

UI/UX Designer - Echostar *June 2011 - June 2013*

Was the primary UI/UX Designer for dishanywhere.com. Also contributed to the Front End coding efforts needed to launch the site.

Web/UI Designer - On-Site.com *Sept 2008 - June 2011*

Designed and coded a template system for the On-Site Marketing platform. As well as redesigned the UI/UX for said platform's administration interface.

Web/UI Designer - Resort Destination Marketing *Feb 2008 - June 2008*

Designed and coded vacation rental website's for the ski industry.

Additional employment history, and project details available at nickmalozzi.com.
